## Resumo

"Finding the true form of the problem is more important than the answer that comes after."

As a seasoned software engineer with over 10 years of experience, I have developed expertise in building scalable and reliable web and mobile applications using OutSystems and other technologies. I am passionate about developing innovative solutions that meet business requirements and exceed user expectations.

Throughout my career, I have worked in various roles and industries, ranging from start-ups to enterprise-level organizations. As a result, I have gained experience in leading development teams, managing client relationships, and collaborating with stakeholders to ensure the timely delivery of projects.

I am skilled in OutSystems, .NET, C#, and SQL Server, among other programming languages and tools. I am also adept at using agile methodologies to manage projects and ensure quality and efficiency.

I am constantly seeking opportunities to grow my skills and knowledge, and I am always willing to take on new challenges. I am interested in exploring new roles in software development and management, where I can leverage my skills to drive innovation and deliver value to clients and stakeholders.

## Experiência

### Babel

OutSystems Architect  
junho de 2024 - Present (2 anos)  
Lisbon, Portugal

- Design and Audit OutSystems Solutions: Conduct in-depth reviews to ensure solutions meet technical standards and align with long-term business goals;

- Optimize Technical Design: Provide expert guidance on complex architectural decisions, ensuring systems are robust, scalable, and maintainable;
- Collaborate with Teams: Work closely with development teams to overcome project challenges, offering mentorship and support to optimize performance and delivery;
- Drive Innovation: Develop complex solutions for business-critical applications, leveraging technical expertise to address unique project demands.

## KinetIT

5 anos 2 meses

### OutSystems Success Manager

fevereiro de 2022 - julho de 2024 (2 anos 6 meses)

Lisbon, Portugal

As an OutSystems Success Manager at KinetIT, I play a pivotal role in the organization's OutSystems practice. I am responsible for supporting and training OutSystems developers to take OutSystems Certifications, promoting OutSystems news and updates to keep KinetIT professionals up-to-date with the latest developments in the platform, and working on improving the OutSystems skills of professionals within the organization.

In addition, I assess architecture and project technical design, design and deploy development processes, and provide project estimations. I also develop proof of concepts (POCs) and explore new OutSystems features, working to increase KinetIT's participation in the OutSystems ecosystem.

One of my key accomplishments in this role was the creation of KinetIT's OutSystems Knowledge Base, a centralized repository of best practices, code samples, and documentation that helps developers to access and share knowledge and expertise, resulting in more efficient and effective project delivery.

I am also responsible for managing OutSystems projects from start to finish, ensuring successful project delivery within budget and timelines, and collaborating with clients to ensure their needs are met. I work closely with development teams, stakeholders, and clients to identify project requirements, design solutions, and manage project risks and issues.

Overall, my role as OutSystems Success Manager involves managing multiple responsibilities and working collaboratively with various stakeholders to ensure successful project delivery and growth of the organization. I am passionate about promoting OutSystems, improving the skills of OutSystems professionals within KinetIT, and delivering high-quality projects that meet clients' needs.

#### Delivery Manager

junho de 2019 - fevereiro de 2022 (2 anos 9 meses)

Lisbon Area, Portugal

#### Do iT Lean

Delivery Manager (external)

setembro de 2019 - abril de 2020 (8 meses)

Lisbon, Portugal

Delivery manager and tech leader for delivery teams (partnership with KinetIT).

#### KPMG Portugal

OutSystems Delivery Manager (external)

outubro de 2018 - maio de 2019 (8 meses)

Lisbon, Lisbon, Portugal

#### OUTFIT - Tailored Agile Solutions

Delivery Manager - OutSystems Consultant

março de 2018 - maio de 2019 (1 ano 3 meses)

Lisbon Area, Portugal

#### OutSystems

3 anos 7 meses

Software Engineer

novembro de 2016 - março de 2018 (1 ano 5 meses)

Linda-a-Velha

OutSystems is a top-leader enterprise for low-code platforms that lets you visually develop your entire application and deploy it to mobile (iOS and Android) or web.

I work in the App FrontEnd team @OutSystems R&D. The purpose of this team is to develop, provide, and support Service Studio features to enable the best experience while developing frontend for applications made using the OutSystems Platform.

#### Knowledge Engineer

setembro de 2014 - outubro de 2016 (2 anos 2 meses)

Linda-a-Velha

As a knowledge engineer at OutSystems my responsibilities were:

- Act as user advocate in close contact with the R&D teams, to ensure that the OutSystems users have an awesome and trouble-free experience;
- Steer the design and development of the OutSystems platform striving for simplicity, consistency, usability, taxonomy, ease and efficiency of use, discoverability and learnability of the features;
- Write, maintain and promote high quality and targeted documentation (product copy, how-tos, reference docs, API docs) that matches the needs of the users;
- Help to define the documentation information architecture;
- Research, learn and brainstorm to come up with clever ideas for content that matches users use cases;
- Develop strategies to promote and gather feedback to help the expansion and improve the existing written content;
- Facilitator in user tests to validate and iterate the user experience when using the new platform's features.
